South Island Mobile Calibration now SI based!!

We have permanently appointed a South Island Mobile Calibration Service TechnicianDavid McRobert— who started with APCTechsafe the beginning of November.

In the next few weeks, David will be calling to site with our regular service technicians as they complete their last leg of the South Island servicing and calibration for 2012. David's home base will be Christchurch, but southerners will be sure to see David on a regular bi-monthly basis in the coming year.

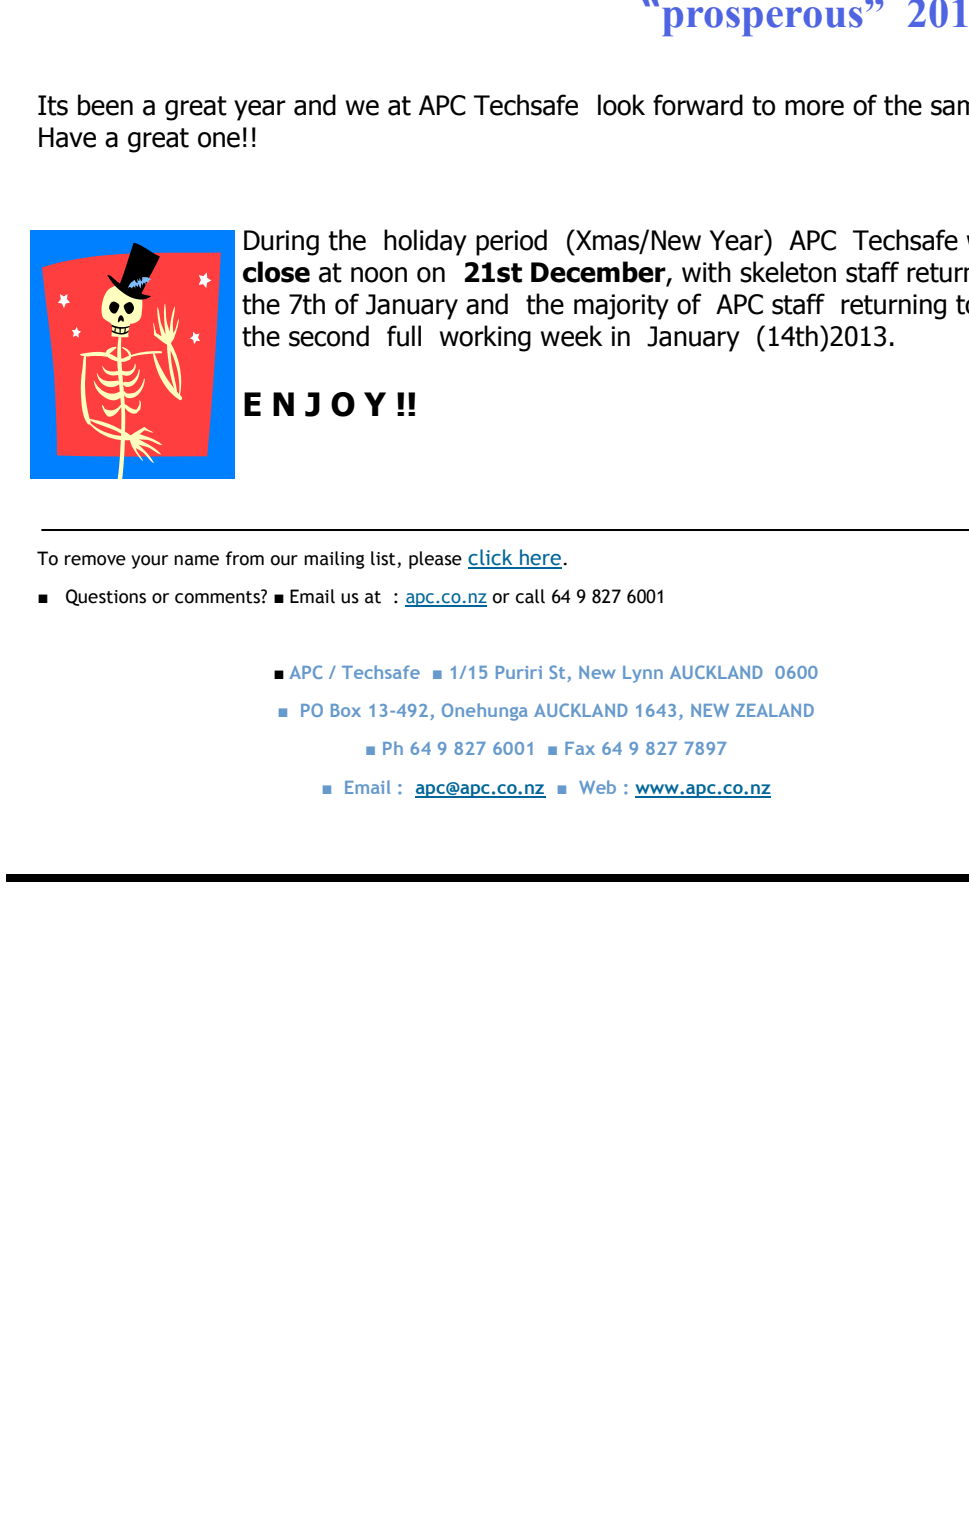

APC Techsafe Service & Hire

Our mobile calibration vans are continually on the road, nationwide, coming to a town near you - for complete servicing and calibration of your gas detection instruments on-site.

Our Services include:

- Routine Calibrations of Fixed and Portable Gas Detectors
- On-Site Calibrations (we have 2 mobile calibration vans on the road continuously)
- Emergency Calibrations (24 hour turnaround)
- Contract work and commissioning of new installations
- Calibration Certificates are issued with every instrument serviced
- A comprehensive range of spare parts ex stock

Don't forget we have an extensive range of gas detection equipment for most applications also available for **HIRE**

Tis the Season with bells on...'

Yes, it is that time of year again,ho ho hocomes around all too quickly!!.

We would like to take this opportunity to thank you all for your continued support and wish you and your families a

Merry Christmas, Happy Holidays, and a **"prosperous" 2013.**

Its been a great year and we at APC Techsafe look forward to more of the same. Have a great one!!

During the holiday period (Xmas/New Year) APC Techsafe will **close** at noon on **21st December**, with skeleton staff returning on the 7th of January and the majority of APC staff returning to duty the **second** full working week in January (14th)2013.

ENJOY!!
