Note: All pricing excludes freight and GST and is subject to change. Valid from December 2019. Local knowledge of the work environment and application is critical and of prime importance when selecting the appropriate gas monitor. Should work procedures/environment and/or plant change please consult with an HSE advisor. Additionally, the user of the equipment is responsible to undertake appropriate training, read and understand the user manual. Correct care use and maintenance is required for proper operation.

*Bump Test Kit price is capped at 10 Days Hire. MultiRAE Bump Test Kit availability dependent on gases selected. Enquire for more information.

We don't just sell safety equipment. We make sure you know how to use and maintain it correctly.
